

Adjustable conical nozzle and fan

Possibility of spraying from a straight jet to a cone spray with the adjustable conical nozzle. With the fan nozzle you get a finer spray.

Standard schrader valve

Pressure gauge

87 psi safety valve

Plastic handle with a support to place it
Spray with no fear of marking the bodywork.

High quality INOX materials

Both, chamber and tank are made of INOX.

Spiral hose of 13 useful feet

Spiral hose prevents dragging while you work.

Stable base with foot support

Place your feet on the base for a more comfortable manual pressurization of the tank.
